

Laptop Tray with cable management

The Laptop Tray is ideal for dual monitor configurations, where a laptop, notebook or tablet computer serves as a second monitor.

It features cable management cut-outs for a tidier workspace and a drop-away lip provides access to ports on the front, sides and rear of the laptop, and a non-slip mat holds the device securely on the tray. This laptop tray is Pre-configured with 100mm VESA screw mount pattern.

The Laptop Tray is ideal for dual monitor configurations in an agile environment.
