

Actiflex II Triple Static Monitor Arms and Mount

The Actiflex II triple monitor arms float your monitors above the work surface. The arms are easily adjustable, at the touch of a finger. The monitors can be tilted up to 180 degrees and can be pivoted from landscape to portrait. Integrated cable management keeps the work surface free from cable clutter.

The Actiflex II triple monitor arms offer a weight range of 0-8kg per monitor.

The Actiflex II triple static monitor arms float your monitors above the work surface.
